

JOHN PIPER.

[To accompany bill H. R. No. 181.]

MARCH 5, 1840.

Mr. S. WILLIAMS, from the Committee on Invalid Pensions, submitted the following

REPORT :

The Committee on Invalid Pensions, to whom was referred the petition of John Piper, report :

There is proof in abundance, and that which is satisfactory, that said Piper was a soldier of the late war ; and while at Sackett's Harbor, in the State of New York, and in the actual service of the country, was taken sick with what is called and known as the camp fever, and immediately became insane, and has remained so ever since ; the surgeon and physician who attended on him in his sickness, and other surgeons, under oath, give it as their opinion that his derangement and insanity was caused by his sickness.

The committee are of opinion that said Piper is entitled to relief, and report a bill for that purpose.
